

MyVeloFit Launches Expert Review Service for Personalized Bike Fit Analysis

Cyclists can now receive professional feedback on their MyVeloFit bike fit results from vetted experts worldwide.

[April 30, 2025] – MyVeloFit, the world leader in AI-driven bike fitting, is excited to introduce its new Expert Review service. This offering allows cyclists to receive a professional evaluation of their bike fit results and personalized recommendations from MyVeloFit's network of approved expert bike fitters. The service provides riders with advanced-level fit analysis and guidance, helping them achieve optimal comfort and performance on the bike.

With the Expert Review service, riders can submit additional information about their goals, discomfort, or injuries, along with their completed bike fit. A certified expert will then analyze their data and provide tailored recommendations within two business days. The service is a one-time purchase priced at \$75 and applies to a single bike and completed fit using either the Enthusiast or Pro plan.

“I thought my fit was good, but after an expert review, I made small tweaks that completely transformed my comfort on long rides. This service is a game-changer!” – A satisfied MyVeloFit user

The Expert Review service gives cyclists the confidence that their fit is optimized, allowing them to focus on their ride rather than discomfort or inefficiencies. To learn more and book an expert review, visit www.myvelofit.com.

Frequently Asked Questions (FAQ)

What is the MyVeloFit Expert Review service?

The Expert Review service provides professional, personalized feedback on your MyVeloFit bike fit results. Approved bike fit experts analyze your completed fit and any additional details you provide to help fine-tune your position on the bike.

Who should use this service?

- Cyclists who want expert validation of their MyVeloFit results
- Riders experiencing discomfort, injuries, or performance issues
- Enthusiasts and professionals seeking additional refinement beyond AI analysis

How does it work?

1. Complete your bike fit using MyVeloFit's Enthusiast or Pro plan.
2. Book an Expert Review and provide additional details about your fit and riding experience.
3. A vetted expert will analyze your fit and send recommendations within two business days.

How much does it cost?

The Expert Review is a one-time purchase priced at \$75 per bike fit review.

What if I have follow-up questions?

Users can submit follow-up inquiries for clarification after receiving their expert review.

Is this a live consultation?

No, the Expert Review consists of a written analysis and recommendations based on your submitted data.

Internal FAQ (For MyVeloFit Team Use)

How is the Expert Review service integrated into MyVeloFit?

Users will be able to select and purchase the service within the MyVeloFit platform after completing a fit.

How are experts selected?

Only professional bike fitters with verified certifications and experience are approved to provide expert reviews.

How is expert performance evaluated?

Experts will be assessed based on customer feedback and satisfaction ratings.

What happens if a user is dissatisfied with their review?

Users can request clarifications or a follow-up within a defined period after receiving their review.

How is user data handled?

User-submitted data is securely stored and accessible only to the assigned expert and the user.

What are the future plans for this service?

Potential enhancements include video consultations, AI-assisted expert recommendations, and expanded service tiers.
