

2025 and Beyond

Overview

- Our Values & Core Focus
- 10 Year Target
- 3 Year Picture
- 1 Year Plan
- Quarterly Rocks
- Key Issues

Our Core Values

- **Prioritize the Cyclist:** "In every decision, the well-being and satisfaction of the riders that use MVF take precedence. We are dedicated to enhancing the cycling experience and ensuring the needs of riders are at the heart of our actions."
- **Cycling for Everyone:** "We strive to make cycling accessible and enjoyable for people of all backgrounds and abilities. We aim to remove barriers and foster inclusivity within the cycling community."
- **Act with Integrity:** "We commit to honesty and transparency in all our interactions. Our actions align with our words, ensuring fairness and ethical practices in everything we do."
- **Innovate Continuously:** "We are dedicated to perpetual innovation and improvement, pushing boundaries to deliver better cycling experiences. Our commitment to innovation drives our products, services, and internal processes."
- **Strengthen Communities:** "We actively engage with and support cycling communities to foster a shared passion and enhance the social impact of cycling. Our involvement extends beyond our products to enrich community connections and promote cycling as a part of lifestyle."

A Better Ride Made Easy

Purpose: MyVeloFit is dedicated to transforming the cycling experience, empowering riders to achieve their full potential. We pioneer innovative solutions that enhance comfort, performance, and enjoyment for cyclists worldwide, regardless of their skill level or cycling goals.

Niche: MyVeloFit revolutionizes the cycling experience by providing accessible, technology-driven sizing and fitting solutions for every rider. Built by passionate cyclists, our platform uses ubiquitous hardware to empower cyclists, whether they're optimizing a new bike or adjusting their current setup. Our unique approach combines deep industry knowledge with unmatched customer service, catering to the growing needs of riders everywhere.

10 Year Target (2034)

By 2034:

- MyVeloFit will be the global leader in both consumer direct and B2B sizing and fitting services, trusted by over 1 million cyclists worldwide.
- From newcomers to elite athletes, we aim to transform bike fitting into an ongoing, dynamic interaction between cyclist and bicycle, ensuring every rider achieves their optimal riding experience.
- Leveraging our unparalleled understanding of the rider-bicycle relationship through data, we will provide detailed insights to the cycling industry that helps transform the consumer landscape for a better ride.
- Our presence will be established in every major cycling market, surpassing \$40 million in annual revenue and setting new industry standards.

3 Year Picture 1/2 (2027)

- **Revenue Goal:** Achieve \$3.5 million in annual revenue.
- **Customer Base:**
 - B2C Serve 225,000 new users/year globally.
 - B2B - 1,000 + B2B users
- **Product Expansion:**
 - Launch a next-generation real-time fitting app with enhanced analytics and user interface. Introduce integration with trainers and wearables for a data driven fit approach.
 - Roll out personalized mobility programs to provide a whole rider approach to bike fit
 - Fast & Reliable bike sizing for all bike types
 - Market leading availability of Bike fit experts for fit reviews.
 - Computer Vision bike measurement tool
 - B2B Product Improvement
 - Have fully functional live iOS & Android Apps

3 Year Picture 2/2 (2027)

- **Market Expansion:**
 - Expand services to cover all major markets in Europe, North America and South America.
 - Establish strategic partnerships with major cycling and e-commerce platforms.
- **Operational Enhancements:** Expand the technology team size to provide expertise across all relevant product areas including: AI/ML, Data Science, Mobile Development, Computer Vision - target 4-8 FTE.
- **Brand Recognition:** Be recognized as the leader in digital bike fitting and sizing solutions.

1 Year Plan ½ (2025)

- **Revenue Goal:** Target \$1.5 million in annual revenue, focusing on expanding user base and enhancing product offerings.
- **New User Target:** Aim to acquire 80,000 new users by leveraging improved app features and expanded market presence.
- **Product Development:**
 - AI fit assistant
 - Posture analysis
 - Refreshed Expert Review process
 - “Custom” mobility programs & resources
 - UI/UX Refresh
 - iOS app launch?
 - MTB Sizing
 - Sizing tool expansion (details TBD)

1 Year Plan 2/2 (2025)

- **Market Expansion:**
 - Begin minor localization efforts for key non-anglo regions.
 - Germany
 - South America
- **Operational Scaling:**
 - Double the technology team by hiring 1 full stack developer (level TBD).
 - Hire a product designer/manager
 - Increase video editing capabilities
- **Marketing & Brand Building:**
 - Roll out referral program
 - Build out affiliate program
 - Increase portfolio of affiliates
 - Develop Creator Sponsorship Strategy
 - Youtube and podcast sponsorships
 - Build out useful tools library (stem calc., seat height calc. etc)

2025 Rocks

Q1 Rocks

- Launch AI Fit Assistant Prototype/Beta
 - Objective: Develop and launch a functional prototype of the AI Fit Assistant to begin integrating it with the current platform.
- Posture/Spine Analysis Testing and Feature Design
 - Objective: Develop and integrate a new Posture Analysis feature into the platform.
- Develop and Launch Referral Program
 - Objective: Design and launch a new referral program to boost user acquisition.
- Expand Video Editing Capabilities
 - Objective: Increase video editing resources to support marketing and content creation.
- Develop and Launch Affiliate Program
 - Objective: Develop a comprehensive affiliate program to increase market reach and user acquisition.
- Revised Expert Review Beta
 - Objective: Develop and test a revised expert review product with Phil Burt.
- Phil Burt Deal
 - Objective: Finalize a long term partnership deal with Phil Burt
- Hiring Initiatives
 - Objective: Hire 1 product designer/manager.

Q2 Rocks

- Design & Implement UI/UX Refresh
 - Objective: Complete designs for the planned UI/UX refresh to enhance user experience.
- Posture Analysis Feature Launch
 - Objective: Push Posture Analysis live to all users
- Launch Revised Expert Review
 - Objective: Develop and launch complete revision of the Expert review product with capacity for multiple fitters.
- Creator Sponsorship Strategy
 - Objective: Develop and implement a Creator Sponsorship Strategy to enhance brand presence.
- Hiring Initiatives
 - Objective: Hire 1 full stack developer.

Q3 Rocks

- iOS App Development Start
 - Objective: Begin development of the iOS app version of the platform.
- Sizing Product Review
 - Objective: Complete a review and update to the sizing product including development of Mountain Bike (MTB) or TT/Tri sizing
- Localization for Key (non-anglo) markets
 - Objective: Start localization efforts for the platform to accommodate German, Spanish, Dutch, Japanese and Portuguese speaking markets.

Q4 Rocks

- Launch New Bike Type in Sizing
 - Objective: Complete the development and launch MTB OR TT/TRI sizing tools and additional sizing tool expansions.
- iOS App Launch Preparation
 - Objective: Prepare for the launch of the iOS app, including final testing and marketing.
- Evaluate Year-End Goals
 - Objective: Review and evaluate the year's goals, achievements, and areas for improvement.

Issues List

FY25 Key Issues

1. Product Development and Management Capacity
2. Product Onboarding Experience/UX
3. Audience Growth/Reach
4. Lack of Technical capacity for iOS App development
5. Sizing approach for other bike types (MTB/TT/TRI)
